Our Journey

From a small family business to supplying springs and forgings for Indian Railways

1968

Began making Leaf Springs for trucks and gradually started building partnerships with customers through our distribution network in Uttar Pradesh, Madhya Pradesh and Bihar

1981

Incorporation of Frontier Springs Limited; started providing services to state transport corporation businesses such as MSRTC and GSRTC

1981-1990

- Enjoyed a monopoly in our business for several years
- As competition increased, started to diversify and provide laminated bearings to the railways.
- As railways evolved, started manufacturing Coil Springs for railways

1991

Set up two plants in Kanpur for Coil Springs and Leaf Springs

1992-2015

Set up another manufacturing unit in Himachal Pradesh

In 2011

Forayed into manufacturing forgings for railways

2022

Forayed into Manufacturing of Air Springs

Business Divisions (1/3)

SPRINGS DIVISION

In 1991, we shifted from Leaf Springs to Hot Coiled Springs for the Indian Railways, which has been our mainstay business for the past 30 years

What do we do?

- Manufacture different kinds of Coil Springs to use space better, reduce tiredness and weight
- Use strong chrome molly and chrome silicon steel rods that are carefully checked for cracks and coated with epoxy powder
- Make the Springs in various sizes – from 10 mm to 65 mm wire thickness, with a maximum height of 1,000 mm

Business Divisions (2/3)

FORGING DIVISION

In 2011, we forayed into the forging business by setting up a manufacturing plant in Kanpur

What do we do?

- Manufacture train parts such as Anti Roll Bar Assembly, Screw Couplings, Draft Gear Assembly and BSS Hangers
- Have big hammers of 1 tonne, 3 tonnes and 6 tonnes to shape metal from as light as 100 grams to as heavy as 80 kg
- Use special ovens to make the metal strong, and machines to shape and cut parts, in our own workshop

Business Divisions (3/3)

AIR SPRING DIVISION

We now create Air Spring suspension systems for LHB coaches for Indian Railways

What do we do?

- Signed an MoU with Contitech Germany to supply Air Springs to Indian Railways

2022

Indian Railways – Our Primary Customer

INDIAN RAILWAYS IS THE FOURTH LARGEST RAILWAY NETWORK IN THE WORLD.

₹2.56 lakh crore

REVENUE FROM OPERATIONS

6.7% Y-O-Y GROWTH

GOVERNMENT INITIATIVES

Freight loading and revenue

1,591 MT of freight loaded in FY2024
5.22% Y-O-Y GROWTH

Automatic signalling

Upgraded 530 km with automatic signalling in FY2023
143.12% Y-O-Y GROWTH

Electrification

7,188 RKMs electrified during the year
9.49% Y-O-Y GROWTH

Gati Shakti Freight Terminals

30 freight terminals created in FY2023 compared to 21 in FY2022

New lines

5.243 km of new lines added in FY2023

Vande Bharat Trains

Issued a production plan of 102 Vande Bharat Rakes
(35 in FY2023 and 67 in FY2024)

Indian Railways – Our Primary Customer

GOVERNMENT INITIATIVES

NATIONAL RAIL PLAN (NRP)

58 super-critical projects of a total length of 3,750 km costing ₹39,663 crore and 68 critical projects of a total length of 6,913 km costing ₹75,736 crore have been identified for completion by 2024

FOREIGN DIRECT INVESTMENT

The government has cleared the proposal for allowing 100% FDI in the railway sector, other than operations through the automatic route. The government wants to invest US\$120 billion in the coming five years for the development of railway services.

INDIAN RAILWAY INNOVATION POLICY

The intention is to work with entrepreneurs, technology developers, and innovators through start-ups to obtain affordable, user-friendly, reliable products and solutions for use on the Indian Railways network.

UNION BUDGET 2023-24

The Indian Railways has been allocated a capital outlay of ₹ 2.4 lakh crore in the Union Budget 2023-24

MISSION RAFTAAR

For speed enhancement and to achieve a target of doubling the average speed of freight trains and increasing the average speed of superfast /mail/express trains by 25 kmph

Different Types of Springs

FACTORS	LEAF SPRINGS	LAMINATED BEARING SPRINGS	HOT COIL SPRINGS	AIR SPRINGS
 CONSTRUCTION	Made of a series of long, thin metal strips that are stacked and held together by pins	Made of multiple layers of steel plates that are bonded together	Made of steel and are heated and shaped into coils	Made of rubber and are filled with compressed air
 COMMON USE	More common in older vehicles	More common in newer vehicles	More common in newer vehicles	More common in newer vehicles
 COST	Less expensive to manufacture	More expensive to manufacture	More expensive to manufacture	Cost-efficient manufacturing
 VIBRATION	Less efficient and can cause more vibration	More efficient and provide a smoother ride	Absorb the shock and provide a smoother ride	Absorb the shock and provide a smoother ride

Advantages of Air Springs and Hot Coil Springs

Smoother Ride Comfort

Can absorb more shock and provide a smoother ride

Better handling

Can better absorb the weight of the train and provide better handling, thus preventing derailments

More Resilient

Can withstand more stress and abuse and thus, run efficiently for longer

Less Maintenance

Less prone to wear and tear, and require less maintenance

Summary of Balance Sheet	24
Summary of Cash Flow Statement	25

From The Managing Director

Kapil Bhatia
MANAGING DIRECTOR

I am pleased to provide you with an update on our performance for Q1FY25. We have had a strong start to the financial year, achieving our highest ever quarterly sales and profitability. This success was driven by robust performance across all our product verticals: Coil Springs, Forging, and Air Springs.

Our revenue for the quarter aligns with our previously stated guidance, targeting a gross top line of ₹240-250 crores for FY25. Several factors contributed to our margin expansion. Firstly, steel prices have remained soft, enabling us to procure raw materials at lower costs, thus aiding our margins. Additionally, demand from the Indian Railways continues to be strong, with no major new capacities coming online. This has allowed us to secure better pricing for our products. Furthermore, our Air Springs product line, which inherently has higher margins than our older products, made significant contributions.

The culmination of these factors resulted in strong operating profitability.

On the growth front, we have continued to drive operational efficiencies. During the quarter, we installed new automated machinery for manufacturing bright bars, a critical input in the production of coil springs. This has helped us clear bottlenecks and improve our operational efficiency. We are also on track to complete the installation of the 6-tonne hammer, with trial production expected to begin by the end of Q2FY25.

The demand for our products remains robust, and we have a strong order book with excellent visibility of future demand. We remain confident in achieving our stated guidance and look forward to a future full of growth and prosperity.

The Future

Ready to Leverage Opportunities

24

Why Invest in Us

25

Ready to Leverage Opportunities

INDIAN RAILWAY GROWTH OPPORTUNITY

Historic Budget Allocation

₹2.40 lakh crore

For railway-Capex – a 51% increase from the previous year

Freight Corridor Impact

One lakh trains

Run, with 73.5% of DFC commissioned. Target to reduce logistics cost from 15% to 8% of GDP by 2030

Vande Bharat & Metro Expansion

50 trains

Incorporated, with an opportunity size of ₹58,000 Cr and metro projects allocation of ₹19,500 Crores in the budget

Record Freight Performance

1,591 MT

In FY 2022-23, a 5% increase Y-o-Y

Private Wagon Ownership Rise

Driven

By government schemes, with significant potential in cement, coal, steel, and auto sectors.

Freight & Passenger Capacity Goals

2.5x

Increase freight by rail to 45% by 2030, and passenger demand forecast to grow 2.5x by 2051

Massive Wagon Orders

~72,000 wagons

Record placement for ~72,000 wagons, with 40,000 more anticipated

Promising Future

Procurement Plans:
90,000 wagons over 3 years, 5 times the annual average.

Fleet Expansion:
Freight target to increase to 3,000 m tonnes by 2027, necessitating a fleet of ~500,000 wagons.

Replacement Cycle:
~35% of existing wagons older than 15 years due for replacement.

Why Invest in Us

Robust balance sheet

Experienced Management at the helm of operations

New (Air Springs) to help improve the margin profile of the business

Strong Industry Tailwinds and growth visibility

New product (Air Springs) to significantly contribute to the topline growth
